CAREER OBJECTIVE

Computer Science undergraduate with strong skills in Java, Python, JavaScript, cloud technologies, AI, and software development. Seeking internship opportunities in software engineering, cloud computing, artificial intelligence, or technology consulting to apply problem-solving skills, contribute to impactful projects, and gain hands-on industry experience.

EDUCATION

B.Tech in Computer Science and Engineering 2024–2028 (Expected)
KL University, India **CGPA: 9.6**

Intermediate (Class XII) 2024
Sri Chaitanya Mahila Kalasala **92.9%**

Matriculation (Class X) 2022
Triveni Talent School **CGPA: 10**

TECHNICAL SKILLS

Programming: C, Java, JavaScript, Python
Web & Full-Stack Development: HTML, CSS, React.js, Node.js, REST APIs, Firebase
Cloud & AI: Microsoft Azure, Azure AI, AWS, Google Cloud Platform (GCP), Machine Learning, AI Fundamentals
Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Management
DevOps & Tools: Docker, Kubernetes, Minikube, Git, GitHub, VS Code, Eclipse

CLOUD & DEVOPS EXPERIENCE

- Gained hands-on exposure to Microsoft Azure through cloud labs involving virtual machines, cloud services, and deployment concepts.
- Practiced AWS through hands-on labs involving EC2, RDS, EBS, IAM, and web-server deployment.
- Worked with Google Cloud Platform (GCP) through hands-on labs involving Cloud Shell, Kubernetes/GKE, Cloud Build, APIs, and GitHub integration.
- Gained practical exposure to Docker, Kubernetes, WSL, and Minikube for containerization and application deployment.

PROJECTS

Online Course Registration System *Java Swing, Java Core*

- Developed a desktop course-registration application using Java Swing.
- Applied object-oriented programming concepts to structure application logic and functionality.
- Designed functionality around course registration workflows and user interaction.

Hospital Readmission Risk Prediction

- Built a machine-learning model to predict 30-day readmission risk for diabetic patients.
- Performed data preprocessing and handled class imbalance.
- Used Random Forest to achieve strong predictive performance.

Telemedicine Consultation Platform *React.js, Firebase*

- Developed a responsive web application for telemedicine consultation using React.js.
- Implemented secure user authentication using Firebase.
- Designed a user-focused interface for online consultation workflows.

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- AWS Certified Cloud Practitioner

ACHIEVEMENTS & ACTIVITIES

- Participated in a 24-hour hackathon, contributing to rapid problem-solving and project development.
- Regularly practice coding, problem-solving, and technical development skills.

AREAS OF INTEREST

Artificial Intelligence — Full-Stack Development — Cloud Technologies — Technology Consulting — Cybersecurity
